Oversikt

This cruise pushes beyond the limits of typical tours and beyond the boundaries of human settlement, to explore remote rainforest. Over four nights the expedition cruise Into the Wild Amazon takes travelers into the dense forests and small tributaries in the UNESCO World Heritage Site, The Central Amazon Conservation Complex. With our small group of adventurers our very experienced naturalist guides, and our deeply capable exploration crew, we venture into one of the richest areas of the planet.

Reiserute

By pre-arrangement, we provide complementary pre and post cruise transfers to and from the Motor Yacht Tucano from two recommended hotels in the historical city center of Manaus: the Hotel Millennium and the Hotel Villa Amazonia.

Travelers that are not staying at either of these hotels should meet the transfer bus at the reception area of the Hotel Millennium. For those passengers that do not have hotel a hotel arranged for the end of the cruise, we recommend that they disembark from the transfer bus at the Millennium Hotel.

Hotel Millennium, Av. Djalma Batista, 1661, Chapada, Manaus - AM, 69050-970, Brazil, Phone: +55 92 3655-3131

Embark: Saturday, Day 1: Meet at 06:15am in the lobby of the Hotel Millennium or the Hotel Villa Amazonia

Disembark: Friday, Day 7: Disembark at 07:30am. Travelers will be transferred to the Manaus city center and will disembark at the Millennium Hotel or Hotel Villa Amazonia

This is a true expedition voyage and we explore far into the wilderness into some of the most untouched rainforest in all of the Amazon. We venture far up the least inhabited major river in the Amazon Basin on our expedition vessel, the Motor Yacht Tucano. Weaving in and out of small channels on the Rio Negro, we explore areas very rarely visited and seek out the mysterious life of the wilderness that stirs in the forest and in the heart of wild nature.

The Into The Wild Amazon cruise visits the most essential areas to observe the flora and fauna as well as and culture of the Amazon rainforest. Our journey concentrates on remote Amazon forest along the tributary the Rio Negro and with a brief sojourn also on the Amazon River. On our expedition cruise we explore the rainforest in many different ways: we walk among the towering trees in the high forest, we glide along narrow streams that wend their ways into the wilderness, and we explore flooded forests and grasslands that stretch from horizon to horizon. Over three and an a half days and four nights we are able to experience the many different environments of the Amazon, teeming with plant and animal life.

Days 1

This afternoon we embark on the Motor Yacht Tucano in Manaus, Brasil. We depart on the Rio Negro and as the vessel glides upstream we will have our first talk about Amazon environments. By late afternoon we enter one of the world's largest river island systems, the Anavilhanas Archipelago. The boat will weave along a winding channel with rainforest on both sides in a riot of brilliant vegetation. Weather permitting, we will go for a launch excursion in the gnarled and dense flooded forest known as the igapó. Along the river bank we may see some Squirrel Monkeys and we may hear the other-worldly growls of Howler Monkeys echoing through the primitive rainforest. The Amazon has one of the greatest collection of birds in the world and we are sure to see some of these brightly colored jewels perched in the treetops.

The first days of the cruise are spent on the wilderness Rio Negro where there are forests that are hardly changed for millions of years. Here we observe plants and animals that have roamed these forests for millions of years. We also visit the he Amazon River itself on the last day of the cruise. Most of our explorations are off the vessel and our days are quite full. There are three or four excursions off the vessel every day. Travelers have the choice in the early mornings to explore by our electric powered launches or by guided kayak groups. Both groups are led by skilled naturalists and we glide along quiet channels among giant rainforest trees draped with vines and orchids. The silence is broken only by the rustling of leaves by Squirrel Monkeys feeding or by the occasional piercing shriek of a Screaming Piha bird. In the late mornings and in the afternoons we walk in the rainforest and sometimes visit a small remote village community. On some nights we venture out in our launches to observe the nocturnal creatures that are active in the star-filled darkness.

We return to the M/Y Tucano for hors d'oeuvres on the observation deck and a toast to the rainforest sunset. Following dinner we will embark in our launches in search of nocturnal creatures such as the Caiman, the Amazon's crocodilians. We may also see one of the large night birds such as a Potoo with its bulging eyes and large mouth adapted to swallow the huge Mariposa Moths. (D)

Day 2

Shortly after sunrise this morning we explore the Anavilhanas Archipelago, a reserve that includes the world's largest system of river islands and also areas of tall dense rainforest. Here we will see the strange environment called the igapó, the black water flooded forest where dense forests grow right out of the dark water of the Rio Negro. Mid morning we return to the vessel for a hearty Brazilian breakfast. After some time to relax, weather permitting we will disembark at mid-morning and will go for a walk in the type of rainforest known as the terra firme. Here we have a good chance to see the markings, if not the animals themselves, of some of the Amazon's great mammals like peccaries (wild pigs) or even a jaguar.

Into the Wild Amazon takes us to a variety of environments including dark flooded forests, dense high forest with towering trees and dense undergrowth, and vast open plains of waving grass which are home to some of the most spectacular wildlife of the Amazon. On lazy afternoons we may fish for the famous Amazon resident, the Piranha, some of whom we may see again on an appetizer plate. During our voyage we will weave

through the narrow winding channels of the Rio Negro as well as enjoying the magnificent vistas of the mighty Amazon River itself. Most travelers are astonished by the scale and grandeur of this majestic waterway that drains a continent.

Around mid-day return to the vessel for lunch and a siesta. In the afternoon we will excursion in our launches along the edges of the dense forest and listen to the sunset chorus of birds, howler monkeys, and frogs. Weather permitting, tonight we will have an excursion to spot caiman (the Amazon's crocodiles) and other nocturnal creatures. We very often see arboreal porcupines or sloths scrambling high in the limbs. (BLD)

Day 3

Today we will voyage to the west side of the Rio Negro and continue to scout in our launches and walk in the forest. We will explore according to the weather and water depth areas rarely visited by anyone else. Tonight the M/Y Tucano goes downstream and river depth permitting, will enter an east bank affluent of the Rio Negro and explore on deep into the rainforest on this small river. After our nocturnal exploration of the rainforest in our launches and we return to the Motor Yacht Tucano for "Caipirinha Night" on and perhaps try a bit of samba on the top deck. (BLD)

On the Into the Wild we not only focus on the rainforest, but also on the culture of the people who live in this vast wilderness. Time and weather permitting, we will visit a small fishing villages perched on the river bank where the traditional life is still guided by the rhythms of the rise and fall of the river. Again, time and weather permitting, we should also visit the homesteads of families who make and grow almost everything they need. For many travelers these visits with local settlers, whose lives are so dramatically different from ours, are some of the most memorable experiences of the cruise. The last evening of the cruise we will coast along one of the greatest ports in the world, the Porto de Manaus. At our farewell dinner we will have the opportunity to reflect on our extraordinary experience and offer a toast to one of the most remarkable places on Earth.

Day 4

We begin the day with a dawn excursion hunting for wakening wildlife followed by a full Brazilian breakfast. We will then go one last time into the forest. In the mid-afternoon we will begin to journey downstream to arrive late in the day at the "Encontra das Aguas" a stark several mile long line where two of the world's largest rivers, the Amazon and the Rio Negro join in a turbulent maelstrom. Here the dark water of the Negro runs beside the opaque brown water of the Amazon. At sunset the M/Y Tucano will once again turn her bows upstream on the Rio Negro and journey to our overnight anchorage north of the City of Manaus. As we pass in front of Manaus, we will marvel at the scale of one of the world's largest and most vibrant port cities, that is over one thousand miles from the sea. Tonight we will have a farewell dinner and prepare for an early departure in the morning. (BLD)

Day 5

Cruise ends in Manaus

Viktig Informasjon

Price Includes:

- Accommodations and meals as indicated in the itinerary
- Guided excursions
- Bottled water is served free of charge. Guests are provided a complementary water bottle and a very stylish straw hat!

Not included:

- Airport transfers, soft drinks or alcoholic beverages

Category rate. If a single traveler wishes to reserve a Yellow Category stateroom, the fare for two travelers rate is due.

Discounts for Children: Children 12 years of age and under who share a room with an adult receive a discount of 50% off the cruise rate.

Notes: Rates are subject to change without notice. In case of force majeure to include unexpected repairs, Amazon Nature Tours reserves the right to substitute a vessel similar to the Motor Yacht Tucano without penalty.

The best time to travel to this region? The best time to travel is whenever your schedule permits. There are always interesting creatures to see in the Amazon and it will be an enjoyable experience whenever you choose to travel. The real keys to success in observing wildlife are that you visit natural areas away from settlement, that the guides are both skillful and focused, that the group size is small, that the activities get you into the forest as much as possible, and that you commit enough of your vacation time to see a variety of habitats, and last but not means least, if you the traveler are persistent in looking for the creatures. On our voyages on the Motor Yacht Tucano we do everything that we can to increase opportunity to observe the magnificent flora and fauna of the Amazon and our expedition cruises are interesting whenever you choose to travel.
